

- Does your morning routine consist of deleting junk email?
- Are you afraid you or someone on your network will open up an email that will shut down your business for hours?
- Do you want a faster Network?
- Do you wonder if your mail filter is working or configured correctly?
- Do you have questions for your current email filter provider but can only contact their support via email. Tired of waiting two days for a reply. Was their reply a link to the admin guide you already have?
- Do you want a better spam fighter but think you cannot afford all the upfront cost and complexity?

If you answered 'yes' to any of the above
 ... You need Richweb's **MailScanner** service

- ✓ **MailScanner** stops the spam and viruses from reaching your network freeing up your valuable internet bandwidth and server resources.

Why Richweb?

- Richweb uses **MailScanner**, software used by Fortune 500 companies and the US government. Notable users include HP, the US Navy and the US Treasury.
- Richweb provides phone support in addition to email support.
 Is waiting 24-48 hours for a support email reply really reasonable?
- Richweb adds custom rule sets based on customer submissions helping not only the reporting user's spam defense but everyone in the Richweb community.
- Richweb knows spam filtering. It is complicated and we have found many of our current clients had either outgrown their filtering solution or it took too much of their time to maintain.
- Richweb is a Better Business Bureau A+ rated member.
